Writing Around the Room

19. How many varieties of teacher dictation are on display in the classroom?
 Circle one: 0 1-2 3-5 6+
 0 1 2 3
This item is designed to determine the variety, rather than the number, of dictations. If the display of teacher dictation consists of work from a one-time, teacher-led activity completed by all children, count it as one example. If a single display consists of unique or spontaneous work from each child or the works were completed over a longer period of time (2+ weeks), count each item as a separate example.

20. How many charts, big books, or other evidence of full-group literacy are there in the classroom?
 Circle one: 0 1-2 3-5 6+
 0 1 2 3
Include teacher-created charts that show evidence of group discussion (e.g., My Favorite Color, Our Trip to the Aquarium).

21. How many varieties of children's writing are on display in the classroom?
 Circle one: 0 1-2 3-5 6+
 0 1 2 3
This item is designed to determine the variety, rather than the number, of child writing samples on display. If the display of children's writing consists of work from a one-time, teacher-led activity completed by all children, count it as one example. If a single display consists of unique or spontaneous work from each child, or the works were completed over a longer period of time (2+ weeks), count each item as a separate example.
