Megann Wenger has completed her experience in a 5<sup>th</sup> grade classroom at Abraham Lincoln Accelerated Learning Academy. I had the privilege of watching her grow in confidence and skill over the last nine weeks. Megann had the opportunity to see how routines and procedures are taught at the beginning of the school year. I feel she did an excellent job considering the time of year and the behavior challenges she encountered with this group of students.

Megann learned a lot about planning. She was able to take into account the skills and needs of the students she was working with and adapted lessons to best meet their needs. I was impressed with the activities she was able to develop for the students. She was responsible for not only the 5<sup>th</sup> grade lessons but also for a group of cross grade level 4<sup>th</sup> and 5<sup>th</sup> grade students for guided reading. Megann took charge of the class from the very beginning. She rearranged the seating in the classroom to help her meet the students' needs, taking into account behavior and the need for help from the teacher. She was extraordinary at correcting work and getting feedback to students in a timely manner. She worked well with our current behavior plan and was even able to give ideas that may make it better for me in the future!

Megann learned that a good teacher is truly flexible. There are so many out of classroom activities that come into play, especially at the beginning of the year, it was good to see her go with the flow. She worked hard to learn what was included in our curriculum so that she could do the best job of teaching the students in our class.

Megann was able to develop a great working relationship with her students. The children respond to her in a positive manner at all times. By using our school-wide discipline plan she has been able to grow in her management of the daily classroom control issues that arise. She has shown great concern for the more troubled students and has worked hard to try to help them be their best while learning from their mistakes.

Megann is very professional in her appearance on a daily basis as well as the way she interacts with both students and staff. Megann has worked with me on committees and intervention team meetings as well. She was able to meet with parents along with me during Parent-Teacher Conferences. She was able to communicate well with the parents on both the positive side as well as those seeking strategies to help their student. She has been an integral part of our 4<sup>th</sup> and 5<sup>th</sup> grade team, planning activities and lessons for students alongside seasoned veterans. Megann communicates well with colleagues, giving valuable input about students. She is an inquisitive learner; she wants to know the teaching profession completely. She is constantly seeking creative solutions to problems. Megann will definitely be a team player in any situation she is put into. I have no doubt that she will be successful in whatever comes her way.

Her work can be summed up by one of the students in this class, "You are so kind and I hope I can follow in your footsteps. I am so happy you were here. I can never thank you enough."
